Lesson 1

Explorer in action

Mr. Osama Youssef

ICT Lessons

Explorer in action

Fredrik Hiebert is an archaeologist and explorer at

NATIONAL **GEOGRAPHIC**

He studies the past through:

GPS-APP

3- writing about objects and sites

What ICT tools does Fredric Hiebert use daily for his work?

Excel spread sheet (Excel): to prepare and show graphs.

PowerPoint presentation program: $\frac{1}{2029}$ to present the results of his research.

• We must make sure that the presentation slides are:

GPS-APP

- easy to read

تطبيق التعلم التفاعلي عن بعد

- explain the information

3- sometimes deliver document by hand

·Hiebert guides his students and colleagues around the world

HOW?

1- He preferes to communicate with people through face-to-face interview (Direct interview)

2- He holds virtual meetings using platforms like Zoom and WhatsApp.

This is when face-to-face meeting is not possible because he's away on an expedition, or the people he's meeting with are in different countries.

- Dr. Hiebert believes it is important to follow up a virtual meeting or telephone call with official notes documented in an email or sent as a Word document.
 - This ensures that everyone involved has the same information and a copy to keep.

Teechnology sometimes has big limititions.

Scheduling calls can be very difficult because time difference between countries for

example. **GPS-APP**

Excercieses

Complete the following sentences

To complete the following sentences
1- Fred Heibert was studying the past through observation and writing about objects and sites
2-Fred Heibert was an archaeologist andexplorer
3- For official communication, Fred Heibert used thepaper letters andemails
4Word is a program used for writing reports. 2029
5- Powerpoint is a program used to make presentations.
6Excel is a program used to create arithmetic tables and graphs.
7Fred Heibert is an archaeologist and explorer who resides in National Geographic
8- One of the platforms that Fred Heibert used to communicate with others

ICT

Lesson 2

Computer Accessories

Computer Components

Input devices

CPU

Output devices

You can use ICT tools to share ideas

I- Computer Accessories

1- Flash Memory	Used to transfer files and data between computers	
2- External hard drive	Like HDD but much faster	
3- Ethernet Cable	A cable that connects a computer or laptop to a router	
4- Ethernet Port	Connects an ethernet cable <u>Ethernet</u> is more stable and faster than <u>Wi-fi</u>	GO LAN
5- Router	A device that connects a computer to the internet via ethernet or wi-fi	ACADIANA We
6- HDMI (High-Definition Multimedia Interface)	A cable that transfer audio and video from\to devices	Harv 20V 46x2K

2- Units of measurements

1 bit	The smallest unit of data	0 or 1
2 Byte	8 bits = 1 character	"Cat" = 3 characters = 3 Bytes
3 Kilobyte (KB)	1 KB = 1024 B	
Megabyte (MB)	1 MB = 1024 KB	
5 Gigabyte (GB)	1 GB = 1024 MB	
6 Terabyte (TB)	1 TB = 1024 GB	2029

Mbps: Megabits per second

GPS-APP

It measures the speed of a network or internet connection. تطبیق التعلق التعلق

GHz: Gigahertz

It measures the number of cycles CPU carries out per second.

The higher the network speed >>>> the better the internet connection.

3- Potential Computer problems and solutions

Problem	Q Cause	Solution	
1 Trouble processing large files (Like a big PowerPoint presentation)	Not enou <mark>gh</mark> graphics storage.	Shut down some programs .	
2 Not able to store files	Not enough space	Move old files to an external drive.	
3 A poor video-conference connection	Slow wireless internet connection تطبيق التعلم التفاعلي عن بعد	Try an ethernet connection	
The home internet connection not working	Connection Interrupted	Use ethernet. <mark>or</mark> Contact (ISP) internet service provider.	

Complete the following sentences with the appropriate ones:

1- From the tools attached to the computer
2 it is a cable that connects the computer to the router .
3 It is a wire that trans <mark>mit</mark> s sound and image to and from devices.
4 is a device that connects a computer to the Internet via Wi-Fi or Ethernet
5- From the units of measurement,,,
6 Is a unit of measurement of the number of cycles per second by the CPU.
7 Like a hard disk drive but it runs faster تطبيق
8 Is the smallest unit of data.
9 is equals 8 bits and also equal one character
10-The word "Ahmed" needs Bytes.

ICT

Lesson 3

Networks

Networks

Networks: are groups of people or things linked together for a common goal.

Similarly,

computer networks: connect computers to each other to exchange important information and data.

LAN (Local area network): -It is a small network in home or school.

-It may connect a computer with another device as router or printer.

Internet: It is a network that connects computers and people who use that network <u>from all over the world</u>.

How to connect your computer to the internet?

What is the World Wide Web(WWW)?

تطبيق التعلم التفاعلي عن بعد

- It is a part of the Internet network
- It consists of web pages and sites that can be navigated.
- **Example**: the Egyptian Knowledge Bank website (ekb).

What is the intranet? (not Internet)

It is a <u>private</u> and <u>restricted</u> network to a group of people linked together by this network.

Such as: a business network, a school or a specific institution.

What is the closed network?

GPS-APP

تطبيق التعلم التفاعلي عن بعد

- It may only have computers are connected by ethernet cable to allow file sharing.
 - Example: school lab

Network Evolution

80s

- dial-up internet connection
- 2 a slow but stable connection.
- phone line is used to connect to internet (couldn't use phone when on internet).
- 1 Digital subscriber line (DSL) (A high-speed connection)
- phone and internet is used simultaneously

GPS-APP

🚺 emergence of the World Wide Web (WWW)عنريق التعلم التفاعلي عن

1 Wi-Fi devices become popular

- 2 access internet from your smartphone
- 2 hotspots allow you to access the internet anywhere

Complete the following:

1 is a network that connects computers and people who use that network from all over the world.
2
3 are types of networks
4 is the abbreviation of World Wide Web.
GPS-APP 5 it is a gateway used to connect a computer to the Internet. تطبیق التعلم التفاعلي عن بعد
6 Is a group of people or things connected together to share data.
7 Is a device that connects computers to ISP.
8consist of webpages that people can move between them.

ICT

Lesson 4

Digital Communication tools

Digital Communication tools

We communicate using computer networks every day.

EX:

- Sending messages.
- take an online class.
- buy something (online).
- Download/upload videos.
- use an app or program.

Businesses and organizations use networks every day to share information,

- some of them are private and in closed networks, تطبيق التعلم
- and some public, or in open networks

Household items can be part of a network too, This is called the Internet of Things (IoT).

Internet of things (IOT):

- It consists of devices linked to the internet via Wi-Fi.
- These devices can be controlled, whether you're in the same room or in another city!
- Ex: Bluetooth speakers digital refrigerator washing machine

GPS-APP

What is a Bluetooth?

تطبيق التعلم التفاعلي عن بعد

It is a networking technology that connects wireless mobile devices over a short range to form a network to transmit data between different devices.

Networks and People of Determination

-

How does ICT tools help people of determination?

- It gives people of determination more independence and helps them save money and time, also helps them increase their level of self-confidence.

- Hatem uses computer networks daily.
- He listens to music on his Bluetooth speakers. PS-API
- His favorite website is the *Egyptian Knowledge Bank(EBK)* because it has a lot or interesting information.
- His favorite subject is archaeology.
- he wants to be an explorer like Fred Hiebert!

- Hatem also shops online. He thinks e-commerce makes life so much easier for everyone.
- Before online shopping:-
 - 5

He always asks his parents before he goes online shopping.

His parents remind him to think about digital privacy, so he's extra safe about giving out his information.

Hatem is <u>visually impaired</u>, so he does schoolwork online using <u>screen readers</u> for audio feedback, and for help with reading braille.

How does screen readers help people of determination?

 Screen readers: help people of determination to do everything they need to do, including writing papers and accessing documents on their laptops.

How does braille help people of determination?

It makes reading much easier for visually impaired people

Complete the following:

1 is the one that consists of devices connected to the internet via Wi-Fi and can be controlled.
2 is a network technology that connects wireless mobile devices over a short range, to form a network that transmits data between different devices.
3 helps people of determination to do everything they need from writing research papers and accessing documents on their laptop computer. them.
4- From home devices that connect to the Internet,
5- Before making online shopping, <u>you must think about تطبية</u>
6-Screen readers are used for feedback.
7- Hatem's favorite website is because it has a lot of interesting information.
8- Hatem thinksmakes life so much easier for everyone.

Decide on a topic.	يحدد موضوع	Conduct a search	يقوم بإجراء بحث

Information search strategies

To search for information online, it is important to do the following:

- 1 Plan your research
- 2 Analyze the information you have obtained
- 3 Check the information you find, Make sure it is correct

5 Then you need to process and organize information before completing your work.

Tt is important to work collaboratively with classmates to conduct research

Here are some suggested steps:

1 Decide on a topic.

Break the topic down into smaller subtopics.

- 3 Share knowledge with your classmates. تطبيق التعلم التفاعلي.
 - ✓ What do you know about already?
 - X What do you not know?

- 4 Decide who is going to search for which information.
 - It is good practice for two people to search for the same information and then share and contrast their results.

- 5 Decide on keywords for searches about the subtopics
 - X because it is not a good idea to use full sentences when searching.

GPS-APP

تطبيق التعلم التفاعلي عن بعد

6 Share your results. decide how to select and organize the information, and then how to organize it for presentation.

Choose the correct answer.

- 1 The first step to conduct a research is (share your results- decide on keywords- decide on the topic)
- 2 Before you express the data in a graph, you must (share it online analyze it delete it)
- 3 To search about the subtopics, it is not a good idea to use (full sentences different words with different meanings different words with similar meanings).
- 4 The best way to collect Information is getting it from (Facebook books WhatsApp).
- 5 You must (divide plan organize) the research topic into smaller subtopics.

تطبيق التعلم التفاعلي عن بعد

- 1 You must evaluate, select, and organize the information you find.
- 2 Breaking the topic down into smaller subtopics helps you in conducting a research. ()
- 3 Using full sentences is a good Idea when searching for any topic. ()
- 4 Using different words with same meanings is a good idea when searching any topic. ()

Choose the correct answer.

- 1 decide on the topic
- 2 analyze it
- 3 full sentences
- 4 books
- divide

Jeff Kerby is an ecologist and a photographer.

He worked on exciting photography expeditions in Africa, North America, and the Arctic. 2024

Jeff Kerby

Photography expeditions:

GPS-APP

They are trips to places where one takes photographs of the area.

Mr. Kirby mainly photographs landscapes and animals.

When Kerby prepares for a trip, he does the following:

- 1 He considers exactly where he's going.
- 2 He thinks of what he is going to do there.
- 3 He thinks of how he will carry out his work securely.

Kerby travels with his tools and equipments such as:

- 1 Camera (with several lenses and batteries).
- Z Laptop. عن بعد التفاعلي عن بعد
- 3 Hard drives
- 4 Phone (to take quick photos).
- 5 GPS (used to navigate location).
- 6 Drone.

What does Kerby do with the images he takes?

- At the end of each day,
- 1 Mr. Kerby backs up all of the images he has taken with his camera or drone onto two external hard drives.

2 If he needs to share any photos with his colleagues immediately, he uses cell phone applications

Owning photos

- 1 Everyone owns the copyright to images they take <u>unless</u> they sell those rights before or after they take them.
- 2 photographers have the legal right or copyright to publish or sell their photos

Copyright infringement

GPS-APP

Some people use photographs that were taken by others without asking permission or without purchasing the right to use the images.

Mr. Osama Youssef

How can photographers protect their work

- They place a watermark on their photos.
- 2 They add copyright information, such as their name to the metadata of each photo.

Mr. Kerby ensures his work is protected by:

- 1 Sharing his high-resolution photos only with people he trusts.
- 2 Sharing his low-resolution photos that won't look good If printed or uploaded to a website.
- Reverse image searches to find out if any of his photos are being used without his permission.

te: 💡 Many Egyptian laws protect the copyright of people

Copyright infringement is against Egyptian law.

الكلمات والمصطلحات ﴿ أَهُمُ الْكُلُمَاتُ وَالْمُصطَلَحَاتُ

protect	يحمي	steal	يسرق
Personally Identifiable Information (PII)	معلومات ال <mark>تعرف</mark> الشخصية	bank account number	رقم حساب البنك

password is discovered	إذا تم اكتشاف كلمة السر	software problems	مشكلات متعلقة بالبرامج
hybrid backup	النسخ الاحتياطي المختلط	تطبيق التعل	

Protecting your personal data

It is important to protect our personal data on computers or other devices.

Personal data (information):

- It includes your name, address, date of birth, and passwords.
- Personal information is called Personally Identifiable

Information (PII).

How can you keep your PII safe?

- Limit the personal information you share online.
- 2 Don't sign up for a website if it asks for too much personal Information
- Use different strong passwords that:
 - 🔼 contain letters, numbers, and special signs...
 - passwords are different for each website you sign Up for why? because if password is discovered, a hacker will access everything.
 The password is discovered, a hacker will access everything.
- Use anti-virus software on all of your devices.
- Update your devices regularly. The updates include changes that keep your data safe.

What hackers can do?

- 1 Use the internet to break into a computer system and steal personal information.
- 2 Use someone's e-mail address and password to send a virus to the e-mail addresses in your e-mail account.

3 Use an adult's bank account number to take money from that account

GPS-APP

■ Note:

تطبيق التعلم التفاعلي عن بعد

You should also know how to protect the files on your device from viruses, software problems, or human errors (such as dropping and breaking your laptop).

Ways to backup your data

- 1 You can use some apps and software programs that back up data automatically.
- 2 You can use a data-storage device that you attach to your computer, such as:

 a. flash memory

 b. external hard drive
- f This is called a hybrid backup and it is a safer way to back up and store files.
- 👉 The hard disk has more space than flash memory it may also be used for the same purpose
- An external hard disk drive is one of the accessories that you can use to save your files securely, and backup copies of your files that are important and private to you to prevent the possibility of losing them on your device.

Theme

الكلمات والمصطلحات أهم الكلمات

phishing	التصيد الاح <mark>تيالي</mark>	won a prize	فاز بجائزة
bank account	الحساب البنكي	encourage	يشجع
data-stealing software	برنامج سرقة بيانات	sensitive information	معلومات شخصية حساسة
identifying phishing scam	التعرف علي التصيد الاحتيالي	misspelled words	أخطاء إملائية
strengthen	يقوي ٦٦	grammar errors	أخطاء في القواعد النحوية
data breaches	والمتراق البيانات بعد	تطبيق التعل	

Reasons to protect your password

There are many ways hackers can get your password, One way is called phishing.

Phishing: is sending a message via e-mail or social media applications that looks real but isn't.

- 1 A message which says that you have won a prize but you have to give your bank account details to get the prize.
- 0

2 Another encourages you to act quickly:

When an attachment or file is opened, <u>data-stealing software</u> is <u>installed</u> on the computer, or the user is asked to enter sensitive information such as bank account details.

Ways of identifying phishing scam GPS-APP

- تطبيق التعلم التفاعلي عن بعد

 1 Messages include misspelled words, grammar errors.
- 2 Messages requests for too much personal data.

Note: Smishing is the same thing as phishing but is a text message instead of an email.

Mr. Osama Youssef

How to protect your Personal data from hackers?

- 1 Using Password manager:
- ☐ You need <u>strong passwords</u> to help protect your personal data from hackers.
- 1 It creates a strong unique password for each of your accounts.
- 2 It tells you if the passwords you already have are too weak or you've reused them.
- 3 It can even tell you if one of your passwords has been stolen online.

2 Multi-factor Authentication (MFA):

- Passwords can also be strengthened through Multi-Factor Authentication (MFA).
- This means you provide at least two ways of identifying yourself.
- It often combines:
- 1 a password or PIN (personal identification number)
- 2 a factor you have, such as an email or a one-time code.

- When you want to log in a website:
- 1 You enter your password on a website

- 2 You receive a text verifying you are signing in.
- 3 Only after finishing both steps, you can access the website.
- This means that: hackers who access your online passwords through data breaches or phishing attacks can't access your accounts because they don't have the second factor.

Example (2):

When you are trying to enter a website on a different pc to your usual pc.

- (3) You will receive a text message on your mobile, asking you to confirm that you are the same person .
- The text message will include a number code that:
- 1 give you access to your account
- 2 It is specified for a short period of time

3 It is specified for one time only.

- 1 A password must not have more than 5 numbers.
- 2 Phishing means providing at least two ways of identifying yourself.
- 3 we can't identify phishing scam messages.
- 4 One type of phishing is receiving a message telling you that you won a prize.
- 5 We can identify phishing when you are asked to provide a lot of personal information.
- 6 A strong password should contain letters, numbers, and special characters.

**Complete with the following

(phishing - Smishing - Multi factor authentication - Password manager)

- 1 helps you to create strong passwords for your accounts.
- 2 provides at least two ways of identifying yourself.
- 3 is sending a message via e-mail to steal your data.
- 4 is sending a message via text message to steal your data.

أهم الكلمات والمصطلحات

phishing	التصيد الاحتيالي	won a prize	فاز بجائزة
bank account	الحساب البن <mark>كي</mark>	encourage	يشجع
data-stealing software	برنامج سرقة بيانات	sensitive information	معلومات شخصية حساسة
identifying phishing scam	التعرف علي التصيد الاحتيالي	misspelled words	أخطاء إملائية
strengthen	يقوي	grammar errors	أخطاء في القواعد النحوية
get excited	تثير اهتمامك	try to bait you	یحاول استدراجك
compromise your privacy	يعرض خصوصيتك للخطر	exploit the information	يستغل المعلومات
Report it	بلغ عنه	victim	ضحية
Scam websites	مواقع الاحتيال		

You should be careful when you go online to a new website.

Scam websites: These websites can be <u>phishing websites</u> that present fake situations that try to get your information

2024

These Scam websites includes:

- 1 Online shopping sites: They never send you the correct items you bought.
- 2 Scareware websites: They say your computer has a problem and you need to download something.
- 3 Sweepstakes scam: They offers you a prize that never comes.

How scam websites operate?

- 1 First, they try to <u>bait</u> you: They want you to get excited or draw your attention to the site.
- 2 Next, they try and <u>compromise</u> your privacy: by getting your personal information or by getting access to your device.
- 3 Finally, they <u>exploit</u> the information they have gained about you in a bad way, or they can hack your device to get money.

Note: Each time it will look different, but all scam websites follow these basic principles.

How to avoid scam websites?

1 Check that the URL: It is the address of the website, It should be credible.

URL: Uniform Resource Locator

- 2 Check for <u>misspelling</u> or <u>bad grammar</u>: a reliable source will be <u>well-written</u>, with almost <u>no mistakes</u>.
- 3 Do a search online to see if it is a known scam; 29

 If something doesn't look right, it most likely is a scam website.
- What can you do if you are a victim of a scam website?
- 1 Report it, Tell your teacher or your parents
- 2 Contact the child helpline or The General Department for Combating Internet Crimes.
- 3 Report the scam website to the service provider, the e-commerce store, and your bank, with the help of your teacher or family member.

Dissecting the URL

All URLs are made up of three main parts: 1 the protocol, 2 the resource name 3 the file path.

 \mathfrak{P} You should understand the different parts of a URL so you can spot something that doesn't look right.

https://www.ekb.com/index.html

protocol

PROTOCOL

A URL starts with the **protocol**.

This determines <u>how</u>
the information will
be transferred.

EX: http, https.

Resource name

RESOURCE NAME

The **resource name** is the web server, or site, being requested and <u>shows who owns that space</u>.

It often ends with:

the file path

FILE PATH

This identifies the specific resource the link is giving you access to.

Computer software

The copyright for a website is usually at the bottom of the home page.

You might be using Copyrighted content when:

- Downloading a TV episode on YouTube.
- 2 Using someone else's artwork on your social media account.

تطبيق التعلم التفاعلي عن بعد When you use copyrighted content:

- 1 You should respect the creator's work and use it fairly.
- 2 You Should ask for permission to use it.
- 3 Attribute it or give credit to the creator.

Creative works that are not covered by copyright (commons)

- 1 Public domain: includes all creative works not covered by copyright law.
- 2 Facts.
- 3 Discoveries.
- 4 Official documents such as laws.
- 5 <u>In Egypt</u>, creative works become public domain after 50 years of the creator's death
- 6 Creative Commons Reuse License: GPS-APP

 This means the creator has given permission for their

work to be used anytime and anywhere.

Note: If you are searching for free images online, you can filter your results to show only images with this license.

During writing a research paper:

You should only use <u>a small part</u> of someone's writing (few words or few sentences).

- There are two ways to use the writings of others:
- 1 Use the exact words as they are without change.
- 2 Paraphrase ideas in your own style. تطبيق التعلم التفاعلي عن
- In both cases, you must mention the names of the writers.

Put (T) or (F)

- 1 Discoveries are not covered by copyright.
- 2 you can paraphrase others' writings when using them.
- 3 You can use others' work and attribute it to yourself.
- 4 Copyright law protects both printed and digital content.
- 5 Copyright for a website is usually at the top of the home page.

Choose the correct answer:

- 1 The international symbol for copyright is letter With a circle around it.

Mr. Osama Youssef

Use reliable sources

Why we use online resources?

- 1 To answer a question
- 2 To identify solutions to a problem
- 3 To conduct study research related to a subject.

--

When you use online resources, you should think about the following:-

- 1 Identifying reliable digital sources.
- 2 You can also go to the site you want by typing the URL in the <u>search engine</u>.

 URL: It is the abbreviation of "Uniform Resource Locator".
- 3 You can also ask your teacher or a family member for help
- The best way to find reliable digital sites is following the sites recommended by your teacher or school, such as EKB, often these websites are stored on a bookmark bar in your browser.

Facts

- 1 Facts come from research and observation.
- 2 Facts are statements that can be proven.
- 3 Facts <u>cannot be debated</u> and are <u>true for everyone</u>.

Opinions

GPS-APP

تطبيق التعلم التفاعلي عن بعد

- 1 Opinions are based on someone's views and experiences.
- 2 Opinions <u>cannot be proven</u>
- 3 They <u>can be debated</u> and are not true for everyone.

Use multiple sources and facts

- 3 It's a good decision to use multiple sources in your research.
- This ensure that you know all the important facts about a topic.

If two reliable websites include the same information:

- This often means that the facts are true.
- Write notes for the first source, then scan the next source for additional facts to add to your notes.

تطبيق التعام online sources have different information تطبيق التعام

- 1 Double-check that both sites are reliable.
- 2 Then make sure the information is based on fact not opinion.

Note: You should follow copyright rules and laws.

🚰 Facts that can be measured:

Maps, graphs, infographics, and charts.

Pictures and videos

They help us acquire information better through watching than just reading words.

Archives and databases

Teenagers	مراهقین	limit the results	تقييد النتائج
combine or exclude keywords	دمج او استبعاد کلمات البحث	Accurate search terms	عبارات بحث دقيقة

تطبيق التعلم التفاعلي عن بعد

How can we get specific search results?

- 1 Start with a specific topic and research questions.
- "The Aswan Dam" is not a specific topic. "The construction of the Aswan Dam" is specific.
- The research questions might include:
 - a) What materials were used to build the Aswan Dam?
 - b) How many workers built the Aswan Dam?
- 2 Use your research questions to find keywords for your search.

Question	Keywords
What materials were used to build the Aswan Dam?	"materials" and "Aswan Dam"
How many workers built the Aswan Dam?	"how many", "workers," and "Aswan Dam."

1 Use synonyms to make your search terms more accurate.

Example: You want to research the amount of time 13 - to 18 - year - old people spend online daily.

Keyword	Result		
- 1			
Children time online	Too many resu <mark>lt</mark>	S	
Teenagers time online	Less results		0000

2 Put the search string in quotation marks.

Example: "Teenagers time on computer" GPS-A

The results will be the exact terms in quotation marks. تطبیق التعلم الت

What is a Search Engine?

- 3 Some search engines suggest keywords and similar searches.
- 4 Search engines also have an advanced searching tool that helps you limit search results.

NOTE: You can combine or exclude keywords or limit the results to specific domains such as .edu or .gov.

Boolean operators and search modifiers

Operator	Example	Results
AND	Video games AND teenagers	Include both terms.
OR	Video games OR tee <mark>nag</mark> ers	Include either term.
NOT	Video games NOT teenagers	Will not include the term
u u	" Video games " 2024	Will include the exact term
()	(Video games) teenagers	Prioritize what is in the parentheses
*	Teen* GPS-AP	Will include all forms of word

- Scan the summary for each search result.
- Dook for titles connected to your topic and keywords in bold.
- 3 Scan for facts that answer your research questions.
- G Choose the results that have many of these items.

Then, click on each possible source and skim the content.

- تطبيق التعلم التفاعلي عن يعد Look for titles, headers, and keywords that match your research topic and questions.
- G Choose the sources with the best match.

a. AND

c. NOT

highlighted word	كلمة بارزة أو مميزة	alphabetical order	ترتيب ابجدي

- You have to write your research paper in your own words, taking notes in your own words make this easier to do.
- For each source, add the URL and the author's name at the top of your notes.
- \mathbb{Q} Reread each note, if information is missing, return to the source and find the missing information.
- When an author's words are important or unforgettable, use <u>quotation marks</u>" " to add those exact words to your notes.

GPS-APP

NOTE: To search an online source by keyworld! تطبيق التعلم التفاع التفا

- 1 Type CTRL+F
- 2 Enter the term in the search box.
- The keyword will be highlighted everywhere it appears on the page.

When you paraphrase, use your own words to explain the ideas of the writer (author).

- 1 Change some of the vocabulary words.
- 2 Change the order of the ideas
- 3 Change the sentence structure.

NOTE: By paraphrasing, you are showing respect for the author's work.

- 😭 Quotes support your ideas and arguments.
- When you include a quote:
- 1 State where the quote came from and why you are using it.
- 2 You can use sentence starters to share this information.

- Examples on using sentence starters
- 1 In the article (article title) it said ..., This shows that ...
- 2 According to (author's name), This proves that ...
- 3 (author's name) states , This proves that ...

- At the end of your research, you list your sources on a Works Cited page.
- Because websites change, some online sources include a permatink to use as the cited web address.
 - Permalink: This is a <u>permanent hyperlink</u>, a <u>highlighted word</u> or <u>picture you click on</u> to take you to another web location.

When you cite a source, you should use the following method:

- 1 Put the citations in alphabetical order by the author's last name or the title of the article.
- 2 If there is no author, Then write the source, the date, and the URL.

Egypt beach resorts fight global scourge of plastic trash. (2019, December 21). Arab News.

Retrieved August 12, 2022, https://arab.news/pwhre

3 For a YouTube video, use the uploader as the author, the date, the video title followed by the word "video", the site name, and the URL.

RTV, 2019. Very Nile video. YouTube, https://www.youtube.com/watch?v=yH5SVlgN_g

Put (T) or (F)

1 You must add the URL and the author's name at the	e end of your notes. ()
---	--------------------------

- 2 To find the missing information in a research paper, look for it in another source. ()
- 3 Permalink may be a permanent link or a hyperlink on an image or a word. ()
- 4 If there is no author, write the source, the date, and the URL. ()
- 5 You must show respect for the author by paraphrasing the text. ()

Choose the correct answer:

- 1 You Should include your in the end of your research.
- a. Content b. citation c. sources
- 2 Some online sources include a to use it as the websites may change.
- a. special link b. special character c. permalink
- 3 To search for an online resource keyword, press
- a. Alt + Ctrl + Del b. CTRL + F c. F5
